WHY PARTICIPATE?

An industry in transformation. An opportunity for new suppliers.

The rubber industry in Mexico is going through a pivotal moment: global logistics challenges, geopolitical uncertainty, and the need to strengthen regional sourcing are driving manufacturers and buyers to redesign their supply chains.

“Expo Hule 2026” emerges as a specialized platform to connect suppliers, manufacturers, and decision-makers in an environment focused on business, networking, and new commercial opportunities.

Why now?

- Because companies are looking for closer, more reliable, and specialized suppliers.
- Because Mexico has a strong and active rubber industry.
- Because there is a constant demand for raw materials, technology, inputs, and innovation.

TARGET MARKET

Expo Hule brings together companies, buyers, and suppliers connected to the main segments of the rubber industry.
